

COMMON EXAMPLES OF DANGEROUS GOODS

**Flammable gases/
Non-flammable**
compressed gases in
cylinders or in aerosol
cans

Aerosol Cans

CO2 Cartridge

Compressed Gas Cylinder

Flammable liquids
- e.g. paint, thinner

Paint

Thinner e.g. Acetone

Solvent Based Paint

Corrosive materials
- e.g. bleach, batteries
containing acids,
mercury(is also toxic)

Bleach

Batteries containing acid

Lithium batteries,
including equipment
installed with such batteries

Lithium Ion Batteries

Lithium Ion Batteries

Lithium Metal Batteries
