

**References:**

**Instructions:**

Notes for use: Refer to the notes on page 7 for further instructions on completing this report form.

Sections 1 through 10 are mandatory. Sections 11 to 14 are optional.

Where an item is satisfactory enter tick (✓) or Y into tick column, if not applicable, state N/A in the tick column.

Where an item is a defect enter the defect number from Section 9 in the tick column.

All defects listed in section 9 will require maintenance action prior to further flight in accordance with the requirements of rule 91.603(a)(4).

Operator:		Primary MOC organization CAR 119.59 (c) (9):	
Job No:		Date review carried out:	Reg. mark: P2-

1. HELICOPTERS PARTICULARS									
Airframe			Engine(s)			Propeller(s)			
Manufacturer									
Model									
TCDS No:		Rev			Rev				Rev
Serial No:									
TTIS									
TSO									
TIS recorder fitted at A/F hours:		TIS recorder reading:		Total hours from tech log:		TIS recorder reading entered			
TIS recorder operational history	Tamper indication		Fault Indication		Remove/fit indication		Is there an hours discrepancy?		
Tacho/Hobbs hour reading:		Heater hour meter reading:							
Maintenance programme:	Previous			Current					
Helicopters conforms to type certificate data sheets and acceptable design changes -									Yes?

2. DOCUMENT CARRIED IN HELICOPTER									
Airworthiness certificate	Category(s):		Expiry date:						
Manufacturer's flight manual	Doc:		Rev:		Current?				
CASA flight manual	AIR:		A/L:		Current?				
	Applicable supplements in flight manual - log of supplements & amendment record sheet current?								
Technical log	Issue No:		Date:						
CAR 91.603(a)(4)	All maintenance, including defects and inoperative equipment / MEL items, recorded on current tech log appropriately rectified or deferred?								
CAR 91.619	Tech log contains all required current information?								
CA 2129 radio station list	Issue date:		Radio list matches Helicopter radio 'as fitted' configuration?						

REVIEW OF AIRWORTHINESS CHECKLIST REPORT - ROTORCRAFT

ISSUED FOR USE  
CA 24066/07

weight & balance record	Issue date:		Date last weighed:		Current per logbook	
	Matches Helicopter logbook?				Within limits and accurate?	
Certificate of Registration	Must be carried on P2 registered Helicopter operating outside of PNG.				Carried?	

<b>3. MAINTENANCE LOGBOOKS</b>					CA logbooks?			
If not using CA logbooks, identify which logbooks being used:								
3.1 Helicopter Logbook			<b>Leading particulars recorded correctly?</b>					
91.605(g)(1) & (2)	<b>Maintenance programme</b>		Current maintenance programme correctly identified? <u>AND</u> Person responsible for scheduling maintenance correctly identified?					
91.605(a)			All due maintenance performed at intervals specified?					
			Any ICAs for mods / role equipment included in programme?					
			Escalation requirements being met?					
43.103(a)(4)	<b>Operational Flight Checks</b>		Carried out and correctly recorded?					
43.69(c)	<b>Maintenance records</b>		Accurate, correctly recorded and completed?					
43.69			Transferred from tech log?					
43.105	<b>Releases to service</b>		All correctly completed, recorded and certified?					
43.113	<b>Duplicate Inspections</b>		All carried out when required, recorded and certified?					
Section 5	<b>CAA required inspections</b>		All applicable checks / inspections carried out and recorded?					
91.605(e)	Radio station	<input type="checkbox"/>	Alt sys & reporting equip	<input type="checkbox"/>	SSR transponder	<input type="checkbox"/>	ELT	<input type="checkbox"/>
	ELT battery	<input type="checkbox"/>	ELT remote battery	<input type="checkbox"/>	Compass swing	<input type="checkbox"/>	First aid kit	<input type="checkbox"/>
	Fire Extinguisher(s)	<input type="checkbox"/>	Floatation equipment	<input type="checkbox"/>	CO Detector	<input type="checkbox"/>	C of G/Weighing	<input type="checkbox"/>
	<b>Manufacturer's inspections</b>		Special inspections carried out and recorded?					
			Calendar inspections carried out and recorded?					
			Aging Helicopter program requirements carried out and recorded?					
	<b>Out of phase maintenance</b>		All carried out and recorded?					
Section 6	<b>Lifed / TBO components</b>		Airworthiness Limitations all recorded and within limits?					
			Manufacturers TBOs all recorded and within limits?					
			Operator's TBOs all recorded and within limits?					
			Any variations to approved maint. programme within limits?

				Refer remarks over page	
6.1	General Condition Inspection – Helicopter is in satisfactory condition?				
6.2	Inoperative Equipment		Physical check that placarding is correct?		
6.3	Overhaul and finite life components		Physical check/verification, where practicable, of serial no's correct?		
6.4	Helicopter Identification and Placards		Type Certification ID plate fitted per 21.109?		
			Helicopter markings correct per 47.101?		
			Stainless steel identification plate fitted per 47.121?		
			Placards required by Part 26, Part 91, and flight manual (including supplements) fitted?		

7. Part 91 Subpart F – Instruments and Equipment Requirements		
91.503	Location of instrument and equipment	
91.505	Seating and restraints	
91.507	Passenger information signs	
91.509	Minimum instruments and equipment	
91.511	Night instruments and equipment	
91.513	VFR communication equipment	
91.515	Communication and navigation equipment – VFR over water	
91.517	IFR instruments and equipment	
91.519	IFR communication and navigation equipment	
91.521	Category II and III precision approach equipment	
91.523	Emergency equipment	
91.525	Flights over water	
91.527	Helicopter operations on water	
91.529	Emergency locator transmitter	
91.531	Oxygen indicators	
91.533	Oxygen for non-pressurised Helicopter	
91.535	Oxygen for pressurised Helicopter	
91.541	SSR transponder and altitude reporting equipment	
91.543	Altitude alerting system or device – turbojet or turbofan	
91.545	Assigned altitude indicator	
<b>Required instruments and equipment fitted and airworthy. Yes?</b>

**12. PART 91 APPENDIX A – INSTRUMENT AND EQUIPMENT SPECIFICATIONS**

A.1	Markings and placards		A.14	Emergency equipment	
A.2	Fuel and oil markings		A.15	Emergency locator transmitters	
A.3	Seating		A.16	Oxygen	
A.4	Restraints		A.17	Passenger oxygen masks	
A.5	Child restraint systems		A.18	Crew members on-demand oxygen masks	
A.6	Helicopter lights		A.19	Oxygen equipment	
A.7	Reserved		A.20	Protective breathing equipment (PBE)	
A.8	Pressure altimeters		A.21	Crew member portable PBE	
A.9	Communication and navigation equipment		A.22	Transponder equipment	
A.11	Category II and III equipment		A.23	Altitude encoder equipment	
A.12	First aid kits		A.24	Altitude alerting system or device	
A.13	Fire extinguishers		A.25	Parachute Assembly for Emergency Use	
A.26	Glider Tow Lines				

**13. PART 135 SUBPART F – INSTRUMENTS AND EQUIPMENT**

135.361	Seating and restraints		135.357	Instrument flight rules	
135.367	Additional attitude indicator				
135.355	Night flight				

**14. RESERVED**

**Explanatory notes for completing the Rotorcraft Review Checklist Report****General, for all sections:**

- enter a tick () or Y in the appropriate column to indicate that the aircraft meets the applicable CAR requirements, or
- enter N/A if the requirement is not applicable to the aircraft or operation, or
- enter a defect number and detail the applicable defect in section 9 beside a corresponding defect number.

**Section 1**

The type certificate data sheet that the aircraft was type accepted into Papua New Guinea under should be referred to. List the airframe, engine and propeller TCDS numbers and ensure that the aircraft conforms with its type certificate.

Automatic time in service recorder – enter details only when a time in service recorder is fitted.

Maintenance programme – refer 91.605(a) – the aircraft must be maintained to either an approved maintenance programme, the manufacturer's programme or an acceptable programme as applicable.

**Section 2**

IA should satisfy themselves that they have the latest manufacturer's flight manual and current CA approved flight manual revision.

Flight manual supplements – a copy of all supplements applicable to the fitted aircraft equipment must be kept in the flight manual.

**Section 3**

Maintenance Logbooks and any alternative maintenance logbook must be acceptable to CA.

L and R columns have been provided for twin engine aircraft. For single engine aircraft, use either column.

Optional to complete listed individual CA required inspections tick boxes

**Section 4**

Identify the airworthiness directive range for each type of component that has been recorded and certified. Also list any applicable AMOCs

Section 3 of this form also contains the check that the latest revision of each airworthiness directive has been recorded and certified in the appropriate logbooks.

The IA must check that the airworthiness directive record relates to the actual components fitted. Any airworthiness directives applicable to components replaced since the last Review must have been considered.

**Section 5**

List all modifications/repairs embodied since the last Review and check that any applicable conformity inspections have been carried out by an appropriately authorized person.

**Section 6**

Optional to complete listed individual physical inspection tick boxes providing 6.1 box completed.

It is recommended that the IA retains a list of sampled overhaul and finite lifed components checked.

**Section 7**

Optional to complete listed individual required Instrument and Equipment tick boxes providing bottom box completed

Beside each item:

- enter a tick () or Y to indicate that the item is present and the condition of the item is satisfactory, or
- enter N/A if the requirement is not applicable to the aircraft or operation, or
- enter a defect number and detail the applicable defect in section 9 beside a corresponding defect number.

**Section 8**

List any appropriate remarks in this section, other than defects observed.

**Section 9**

All defects listed in this section will require a clearing maintenance action prior to further flight in accordance with the requirements of Part 91.603.

The IA must sight satisfactory certified maintenance entries for all defects prior to certifying the Review.

**Section 10**

If completing this report electronically, state in the signature block "Certified in logbook"

**Section 11**

This section is an optional administrative checklist for the IA.

**Section 12 to 14**

These sections are optional. Relevant section(s) should be completed if any of the affected instruments or equipment have been replaced, or the aircraft role has changed within the last 12 months.
